# Virginia Resource and Inventory Management Program

## Purpose:

To develop an **inventory of resources** from across the commonwealth in a **standardized format** that expedites local and state capability **evaluation** and resource **sharing**.

# Standardized Format: Mission Ready Packages

2011-25									
A	B	C	D	E	F	G	H	I	J
<b>Assisting State Emergency Management Mission Reference</b>									
<b>Resource Provider Tracking Number:</b>									
<p>NOTE: Development of a Mission Ready Package does not guarantee deployment on an EMAC mission through your state emergency management agency (SEMA). Development of the MRP should be coordinated with your SEMA. NIMS Resource Typing is not a requirement for developing an MRP under EMAC as all resources are valuable. All costs are estimated based on current data and should be validated at the time the MRP is requested. Costs may vary from the costs estimated in the MRP or the actual costs incurred during the deployment. Therefore, the MRP should be maintained in an operational state of readiness to facilitate both deployment and reimbursement requirements.</p>									
<b>1. MRP Title:</b> Medical Support Team for Shelters									
<b>2. Resource Provider / Agency Name:</b>									
<b>3. Location:</b>									
<b>4. Point of Contact:</b>									
<b>5. NIMS Resource Typing (if applicable):</b>									
<b>NIMS Category:</b> Medical and Public Health <b>Kind:</b> Team(s) <b>Type:</b> Other									

- Resource capabilities that are organized, developed, trained, and exercised prior to an emergency or disaster
- MRP format contains all the information vital for a successful mission and reimbursement:
  - Mission description and capability
  - Estimated mission costs
  - Footprint, limiting factors, and logistical support requirements
- Microsoft Excel workbook templates

# Inventory of Resources

- Resources that would be valuable for use during intrastate or interstate mutual aid deployments.
- Cross-discipline, all hazard response resources
- Locally owned and State owned

# Key Strategic Resource Examples

- ❑ USAR/SAR Teams
- ❑ Swift Water Rescue Teams
- ❑ Hazmat/CBRNE Teams
- ❑ Technical Rescue Teams
- ❑ Radio Caches
- ❑ Public Health Teams
- ❑ Law Enforcement Special Response Teams (LE-SRT)
- ❑ EOC Support/IMTs
- ❑ Shelter Support Teams
- ❑ Staging Operations Teams
- ❑ Law Enforcement Teams
- ❑ Specialty Resources:
  - ❑ Foam Trailers
  - ❑ Shelter Supply Caches
  - ❑ Civil Unrest Caches

# Which Existing Resources to Package

Prior to developing an MRP, review your existing resources and consider the following:

1. What resource do you have that would be valuable for use during intrastate or interstate mutual aid deployments.
2. Is this a key strategic resource?
3. Can this resource be deployed through Virginia Statewide Mutual Aid?

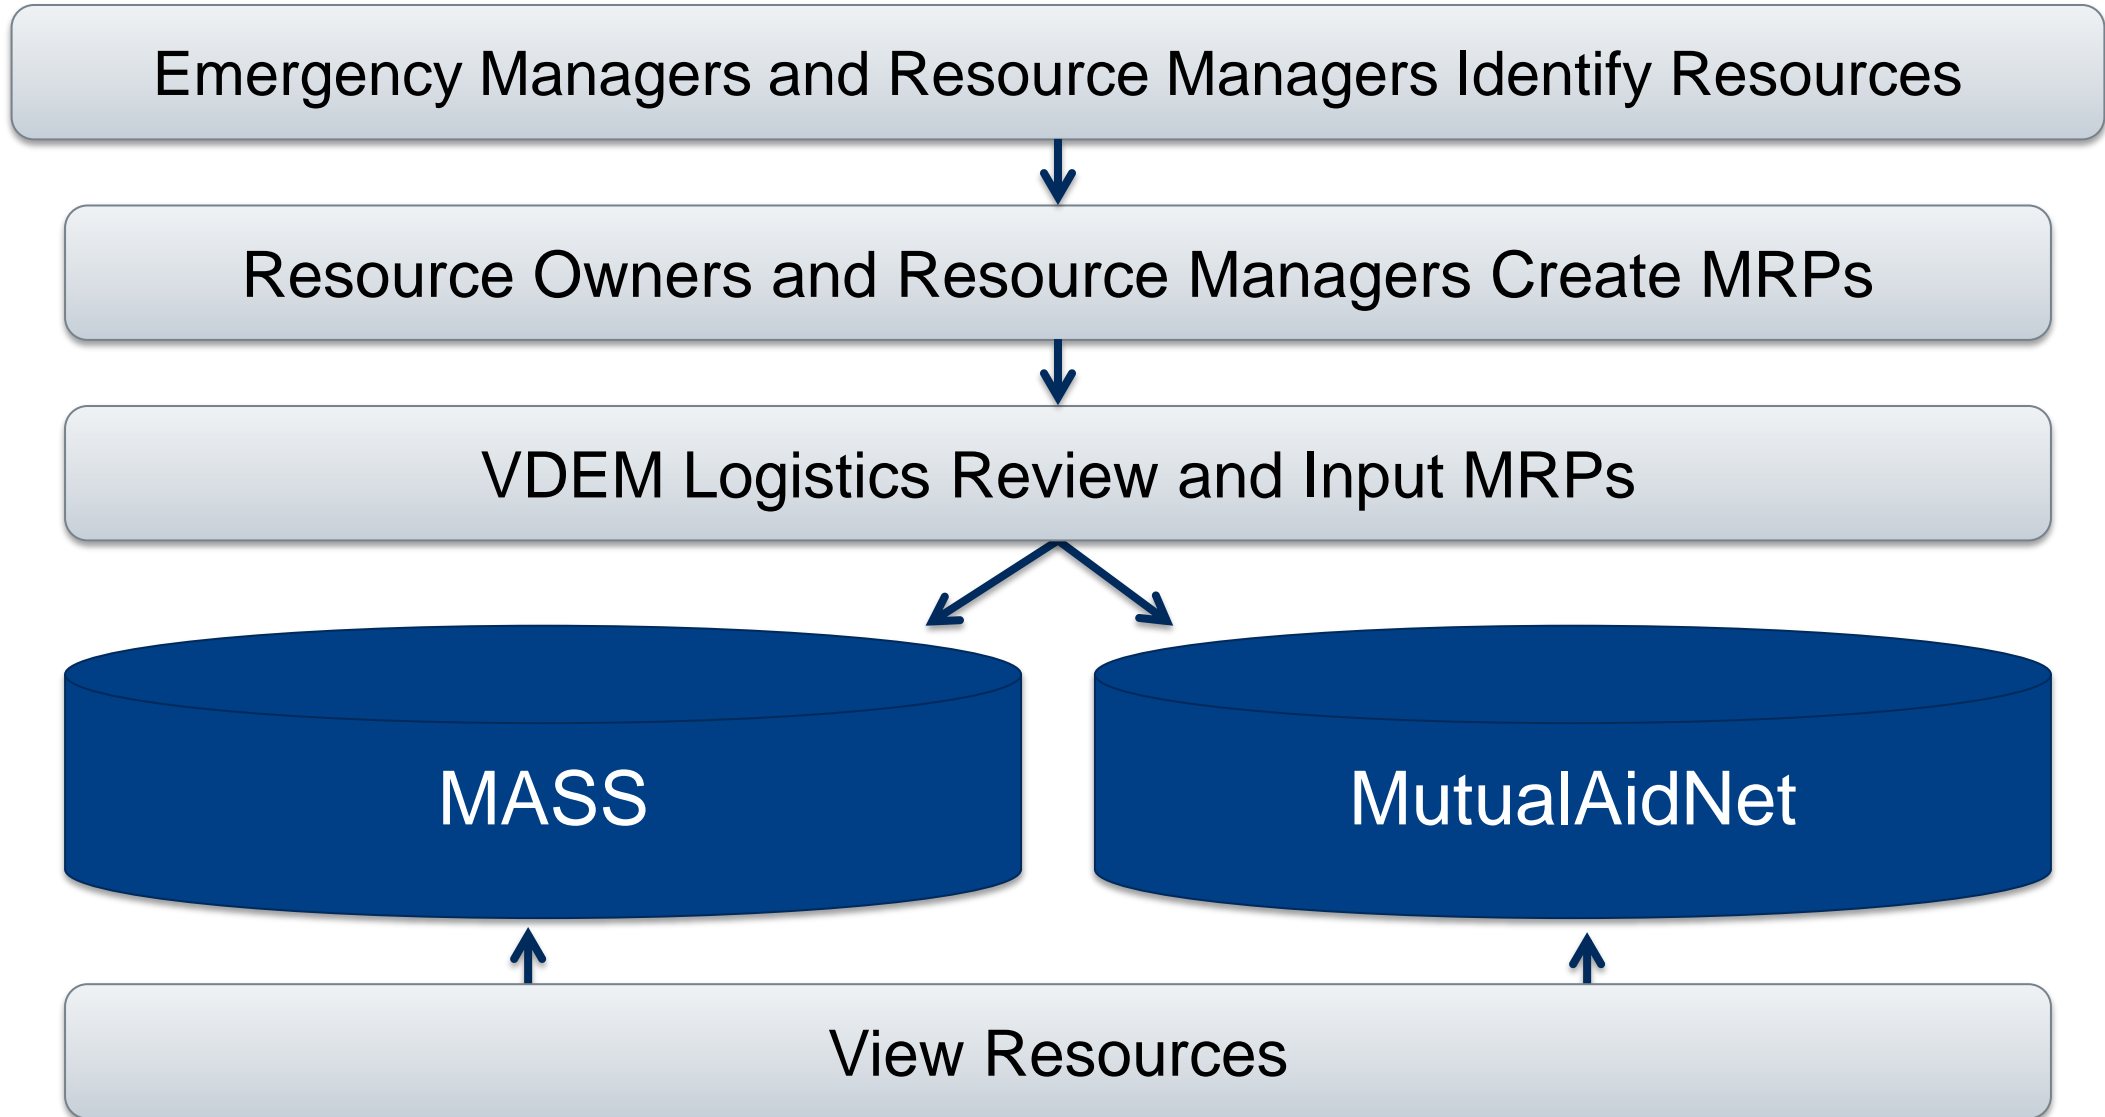

# What We are Not Asking You to Do

1. Purchase or Create Resources to Inventory
2. Package resources that you are not able to share
3. Package resources that are not likely to be in demand outside your jurisdiction

If a resource would not be utilized for response outside your agency, there is no need to package that resource.

# Program Process Organization

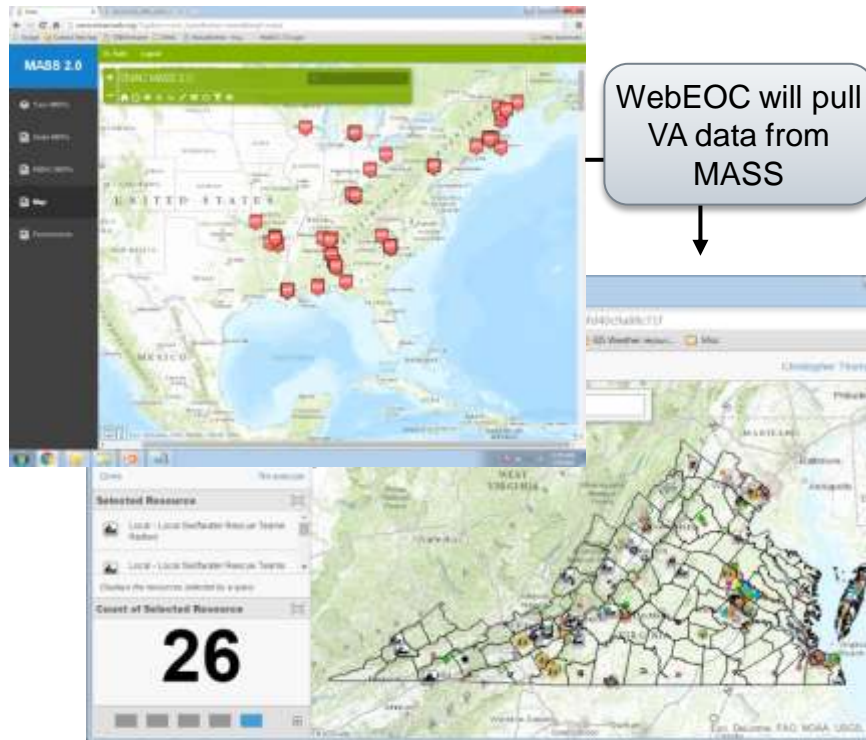

# Program Data Access

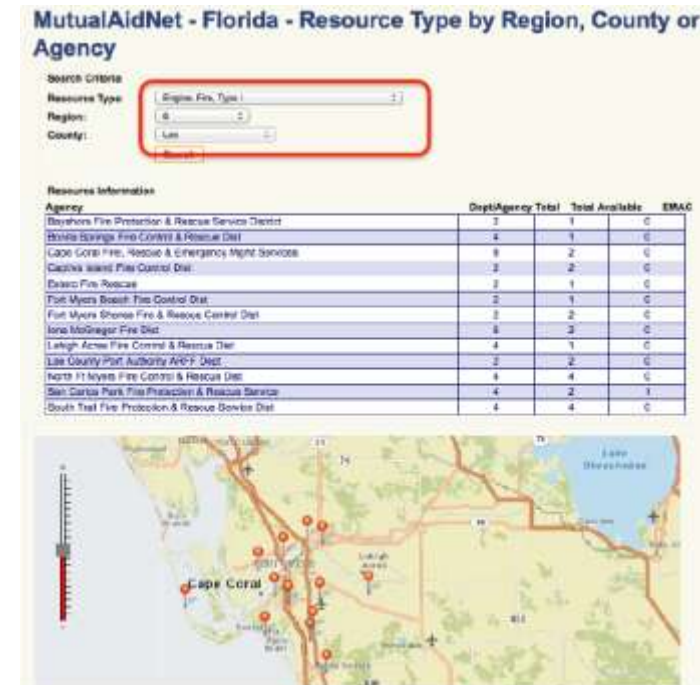

## Mutual Aid Support System (MASS)

- National visibility for EMAC use
- Data pulled into WebEOC for VA use

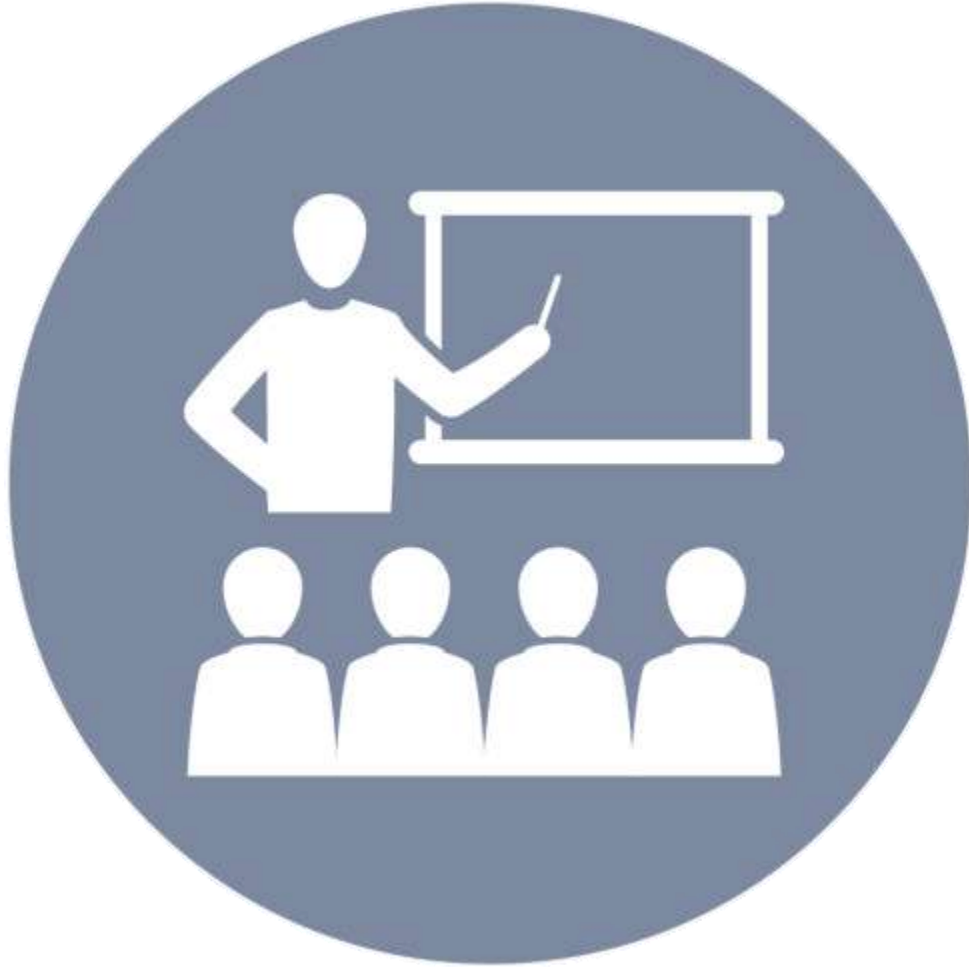

## MutualAidNet

- VA users can view online
- Functionality still being developed

# The Value of Participating: Situational Awareness

Situational awareness of capabilities around the Commonwealth

- Planning
- Incident Response

# The Value of Participating: Speed

Reduces the time from resource request to sourcing the resource for both intra and interstate mutual aid.

- Capabilities, personnel, skill sets, credentials, equipment, and supplies described.
- Logistical support, necessary supplies, and space requirements are part of the MRP.

# The Value of Participating: Reimbursement

When reimbursement is being sought- most often State or EMAC missions- the MRP format aids in the development of the reimbursement package.

The MRP format can also assist in the documentation of Donated Resources.

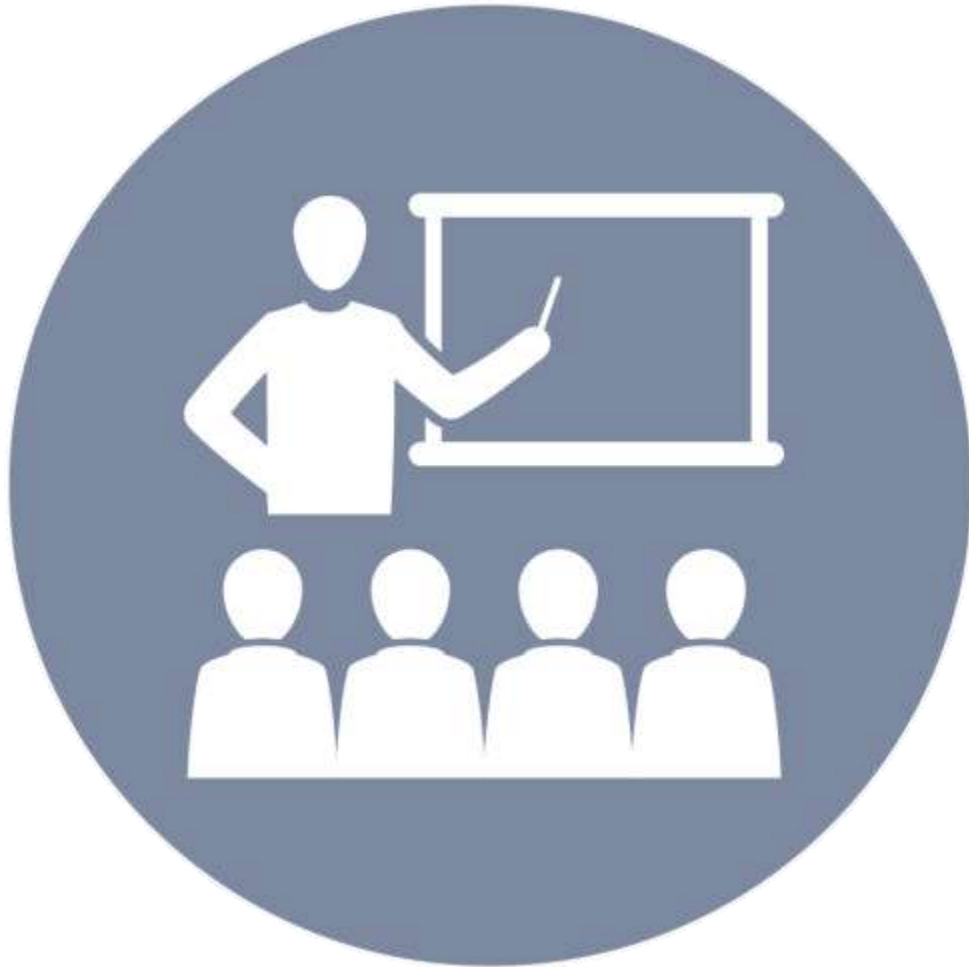

# The Value of Participating: Deployment

Deployment makes your team stronger. It provides valuable experience they will bring home.

While inclusion in the Virginia Resource and Inventory Management Program does not guarantee deployment, your MRP's visibility within the Commonwealth and across the country will increase the likelihood of your resource being requested.
